

in safe locations as directed by event officials and BLM personnel.

Specific information pertaining to each event is as follows:

1. Valley Off-Road Racing Association Yerington 300 Off-Road Race—Permit Number NV-035-95-12. A multiple-lap OHV race on roads and washes near Yerington, Nevada in Douglas and Lyon Counties, within T12N R24E; T13N R24E; T14N R24E; T15N R24E; T16N R24E; T13N R25E; T15N R25E; T16N R25E; T17N R25E; T17N R26E.

Bureau Lands to be closed include existing roads and washes identified on the ground as the 1995 Yerington 300 Off-Road Race route except at designated pit and spectator areas. Spectator areas are: the Start/Finish area and Gallagher Pass Road and Churchill Canyon Road. Camping on public lands in conjunction with the event must be a minimum of fifty yards away from the race course centerline. This closure will be in effect from 6:00 p.m. May 27 until midnight on May 28, 1995.

The above restrictions do not apply to race officials, law enforcement and agency personnel monitoring the event.

Authority: 43 CFR 8364 and 43 CFR 8372.

Penalty: Any person failing to comply with the closure order may be subject to the penalties provided in 43 CFR 8360.7.

Dated: April 7, 1995.

John Matthiessen,

Walker Resource Area Manager.

Caliente Management Framework Plan Desert Tortoise Amendment and Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent and Additional Scoping Period.

SUMMARY: The Bureau of Land Management intends to amend the Caliente Management Framework Plan to implement the U.S. Fish and Wildlife Service Desert Tortoise (Mojave Population) Recovery Plan, issued June 1994. The purpose of the plan amendment is to outline the specific objectives and planned actions needed for desert tortoise recovery and for eventual removal of the desert tortoise from the federal list of threatened and endangered animals. The amendment will delineate Desert Wildlife Management Areas (Coyote Springs, Mormon Mesa, and Beaver Dam Slope)

in desert tortoise habitat, and prescribe management actions inside and outside these areas in accordance with provisions in the recovery plan. These areas will be evaluated for potential designation as Areas of Critical Environmental Concern. Potential impacts will be analyzed through an environmental impact statement.

There will be an additional 30-day scoping period to solicit public comment on the desert tortoise amendment.

DATES: Additional written comments must be submitted and postmarked no later than May 22, 1995.

ADDRESSES: Written comments should be addressed to: Curtis G. Tucker, Area Manager, Caliente Resource Area, P.O. Box 237, Caliente, Nevada 89126.

FOR FURTHER INFORMATION CONTACT: Kyle Teel, Wildlife Biologist, at the above Caliente Resource Area Office address or telephone (702) 726-8100.

SUPPLEMENTARY INFORMATION: The Desert Wildlife Management Areas outlined in the Recovery Plan that are located within the Caliente Management Framework Plan area are: Coyote Springs, Mormon Mesa, and Beaver Dam slope. For a legal description and/or a map of these areas, contact the Caliente Resource Area Office. The boundaries of these areas may be modified based on public comments and resource information received during this land use plan amendment process.

This amendment was started in December of 1994 with a "Notice of Intent and Scoping Period," published in the **Federal Register** on January 30, 1995, Vol. 60, No. 19, p. 5794. The original intent was to amend the Caliente Management Framework Plan and analyze the potential impacts through an environmental assessment. However, due to the complexity of the resource management issues and responses from the public, the determination was made to prepare an Environmental Impact Statement to fully analyze the impacts of implementing the recovery plan and complete the amendment.

Federal, state and local agencies, and other individuals or organizations who are interested in, or affected by aspects of amending the Caliente Management Framework Plan to implement the U.S. Fish and Wildlife Service Desert Tortoise (Mojave Population) Recovery Plan, are invited to participate in this planning process. If you submitted comments during the previous scoping period, you need not resubmit them. They will be considered along with

comments received as a result of this notice.

Dated: April 7, 1995.

Ann J. Morgan,

State Director, Nevada.

Notice of Issuance of Disclaimer of Interest to Lands; Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of issuance of disclaimer of interest in lands in Idaho.

SUMMARY: The United States of America, pursuant to the provisions of section 315 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1745), proposes to disclaim and release all interest to Bill Gatung, the owner of record, for the following described property, to wit:

Boise Meridian, Idaho

T. 20 N., R. 22 E.

All lands in section 7, lying between the adjusted original 1891 left and right bank meander lines and between the 1891 right bank meander line and the 1991 left bank meander line of the Salmon River, except for Lot 19, as shown on the plat of the dependent resurvey of Township 20 North, Range 22 East, Boise Meridian, Idaho, accepted July 23, 1993.

The official records, the original public land survey, and the dependent resurvey approved and accepted July 23, 1993, show that the land described above is a combination of avulsed, accreted, or non-substantial omitted land created when the river changed channels subsequent to the 1891 survey. The land, therefore, is not public land; and the application by Bill Gattung, for a disclaimer from the United States for this land will be approved if no valid objection is received. This action will clear a cloud on the title of the applicant's land.

DATES: Comments or protests to this action should be received by July 19, 1995.

ADDRESSES: Comments or protests must be filed with: State Director (943), Bureau of Land Management, 3380 Americana Terrace, Boise, Idaho 83706.

FOR FURTHER INFORMATION CONTACT: Cathie Foster, at the above address, or (208) 384-3163.

Dated: April 10, 1995.

Jerry L. Kidd,

*State Office Team Leader for Operations
Support Team.*

Realty Action; Revised Administrative Boundaries, Salem District

April 11, 1995.

The Salem District, Bureau of Land Management, announces a revision in its resource areas. Formerly, the Salem District was subdivided into five resource areas. Now, the Salem District is subdivided into three resource areas. Descriptions of the exterior management boundaries of the three resource areas are as follows:

Cascades Resource Area

Beginning at the Oregon state line at the confluence of the Columbia and Willamette Rivers; thence easterly along the Multnomah County line; thence southerly along the Multnomah-Hood River County line; thence southerly along the Clackamas-Hood River County line; thence southerly along the Clackamas-Wasco County line; thence southerly along the Marion-Wasco County line; thence southerly along the Marion-Jefferson County line; thence southerly along the Linn-Jefferson County line to its intersection with the township line between Ts. 13 and 14 S., Will. Mer., Oreg.; thence westerly along said township line to the center of the main channel of the Willamette River; thence northerly along the center of the main channel of the Willamette River to the place of beginning. The Resource Area combines the previous Clackamas and Santiam Resource Areas.

Tillamook Resource Area

Beginning at the Oregon state line at the confluence of the Columbia and Willamette Rivers; thence southerly along the center of the main channel of the Willamette River to the Yamhill-Polk County line; thence westerly along the said Yamhill-Polk County line; thence southerly along the Polk-Tillamook County line; thence westerly along the Tillamook-Lincoln County line to the Pacific Ocean; thence northerly along the Pacific Ocean to the mouth of the Columbia River; thence easterly along the Clatsop, Columbia, and Multnomah County lines to the place of beginning. The Resource Area combines the previous Tillamook Resource Area and the northern portion of the previous Yamhill Resource Area.

The Resource Area headquarters is located in Tillamook, Oregon.

Marys Peak Resource Area

Beginning at a point on the Willamette River at the Yamhill-Polk County line; thence southerly along the center of the main channel of the Willamette River to the Benton-Lane County line; thence westerly along the existing Salem-Eugene District line to the Pacific Ocean; thence northerly along the Pacific Ocean to the Tillamook-Lincoln County line; thence easterly along the said Tillamook-Lincoln County line; thence northerly along the Polk-Tillamook County line; thence easterly along the Yamhill-Polk County line to the place of beginning. The Resource Area combines the previous Alsea Resource Area with the southern portion of the previous Yamhill Resource Area.

Maps showing the above-described boundaries are available for review at the Salem District Office, 1717 Fabry Road SE, Salem, Oregon 97306, and the Tillamook Resource Area Office, 4610 Third Street, Tillamook, Oregon 97141.

Van Manning,

Salem District Manager.

BILLING CODE 4310-33-M

[ID-030-05-1220-00]

Notice of Sanitation and Special Recreation Permit Requirements on the South Fork of the Snake River

SUMMARY: Pursuant to 43 CFR 8365.1-6 and 8372.1-1 the following acts are prohibited yearlong within the Snake River Special Recreation Management Area (SRMA) and Area of Critical Environmental Concern (ACEC) between Conant Boat Ramp (river mile 884) and Lufkin Bottom (river mile 875) on Bureau of Land Management lands.

(A) Boating, either float boating or power boating, on overnight trips without a portable sanitary device for carrying out all solid human waste (fecal matter).

(B) Camping without receipt of a properly executed self-issue permit allowing for overnight camping. A permit is required for each power boat and each float boat party for overnight trips. The permit is cost free, and it does not limit numbers of boaters.

SUPPLEMENTARY INFORMATION: These restrictions meet the requirements of the South Fork Activity Operations Plan and the Medicine Lodge Resource Management Plan for the Snake River SRMA and ACEC.

Implementing the portable toilet regulations will protect health and safety by removing fecal material from the camp areas. It will enhance the effort to keep campsites clean and free of litter (tissue paper) by requiring removal of waste. It will also aid in educating the public on no-trace camping techniques. Implementation of the regulations was highly favored by river users during visitor contacts.

Use of the South Fork of the Snake River has increased dramatically in recent years. Planning for present and future recreation demands requires specific information on amount and type of river use. Permits contain information and education that addresses social and environmental issues associated with resource use on the South Fork of the Snake River. Further, permit information provides for education concerning Bald Eagle Nesting Areas and requirements associated with their protection. Permits also provide accountability for user's actions when recreating in the permit area.

DATES: This notice is effective as of May 26, 1995.

ADDRESSES: Comments may be mailed to Bureau of Land Management, 1405 Hollipark Drive, Idaho Falls, ID 83401.

FOR FURTHER INFORMATION CONTACT: Wade Brown at (208) 524-7543.

Gary L. Bliss,

Associate District Manager.
